Holds Permanent Residence Permit

SUMMARY

Fullstack / Frontend Software Developer with an M.S. in Computer Science from Malmö University. Experience developing applications using Python, FastAPI, PostgreSQL, Svelte and TypeScript, alongside frontend development, containerized services, automated testing and web performance optimization.

PROFESSIONAL EXPERIENCE

Fullstack Developer Intern, Kravi Analytics *09/2026 – Present | Lund*

- Developing several applications using Python, FastAPI, PostgreSQL, SQLite, Svelte and TypeScript.
- Using pytest, Ruff, Docker, Docker Compose and GitHub Actions CI/CD in the development workflow.
- Using GitHub Copilot and Codex to support everyday development.

Frontend Software Developer (Intern), Fyaril AB *08/2025 – 12/2025 | Lund*

- Engineered low-latency webhook integrations for real-time e-commerce event capture, automating cart recovery systems and driving customer re-engagement.
- Developed optimized, responsive, customer-driven UI blocks for call-to-action (CTA) conversion.
- Collaborated with cross-functional teams in an Agile environment to iterate on user feedback.

Frontend Developer, DASC *03/2018 – 12/2018 | Australia (Remote)*

- Designed and developed dynamic web applications for high-volume auction services.
- Built and maintained applications using Node.js, ExpressJS, Bootstrap and MySQL.
- Translated UI mockups into clean, semantic and performant modular code.

Thesis Student, Axis Communications *03/2017 – 06/2017 | Lund*

- Conducted Master's thesis research in an R&D environment focused on web performance optimization.
- Researched and implemented methods to reduce critical rendering path "first paint" time by loading vital files upfront.
- Developed a custom tool using Design Science Research methodology to analyze and extract critical CSS.

SELF PROJECT

Dockerized Multi-Calculator Microservice (Python & FastAPI) *05/2026 – 06/2026*

- Engineered an asynchronous REST API using Python and FastAPI for mathematical calculations and real-time loan amortization logic.
- Containerized the application with Docker and Docker Compose.
- Implemented custom middleware for CORS, request timeout protection and structured logging.
- Designed Pydantic validation, structured JSON responses and error handling.
- Built a Python unittest test runner and unit/integration tests covering edge cases and payload structure.

SKILLS

Frontend Expertise HTML5, CSS3, JavaScript (ES6+), TypeScript, React, React Native, Svelte, Tailwind CSS, Sass/Less, Bootstrap, Figma (UI/UX)

Backend & Databases Python (FastAPI), Node.js (Express), PHP, PostgreSQL, SQLite, MySQL, MongoDB, RESTful API Design

DevOps & Tools Docker, Docker Compose, Git/GitHub, GitHub Actions CI/CD, Ruff, GitHub Copilot, Codex, Jira, VS Code, Agile/Scrum, Responsive Web Design

Testing pytest, Python unittest, Integration Testing, Test Automation

EDUCATION

IT Frontend Development, Sundsgården Folkhögskola 01/2025 – 06/2025 | Distance

Master of Science (M.S.) in Computer Science, Malmö University 08/2016 – 06/2017 | Malmö

Masters in Computer Science and Engineering, Anna University 08/2012 – 06/2014 | India

Bachelors in Computer Science and Engineering, Anna University 08/2008 – 06/2012 | India

LANGUAGES

English • Swedish • Tamil
